MANUFACTURERS OF PROCESS EQUIPMENT'S FOR

FOOD | DAIRY | BEVERAGE | EDIBLE OIL | SPICE

FRUITS & VEGETABLE | PHARMA INDUSTRIES

About Us

Upase Process Equipments, founded in 2022 in Pune, is a dynamic manufacturer specializing in high-quality stainless steel process systems for the Pharmaceutical, Dairy, Food & Beverage, and Chemical industries. We design and build durable, efficient, and hygienic equipment that meets the highest industry standards. With expertise in Brewing Systems, Mixing & Carbonation, and CIP/SIP systems, we deliver precision-engineered solutions tailored to client needs. Guided by innovation and a customer-first approach, we strive to redefine process engineering through reliability, sustainability, and excellence.

Our Mission & Vision

Our vision is to be a global leader in process equipment manufacturing through innovation, sustainability and precision engineering. We aim to set new industry standards with advanced technology & a customer-focused approach, making every process smarter & more efficient.

At Upase Process Equipments, our mission is to design and manufacture high-performance stainless steel systems that ensure superior quality, hygiene, and efficiency. We provide innovative and reliable solutions that empower industries to achieve operational excellence.

Why Choose Us?

✓ Engineering Excellence :

Our team comprises seasoned engineers and industry experts dedicated to delivering solutions that redefine industry benchmarks.

✓ Quality Assurance :

Every Upase product undergoes rigorous quality testing to ensure durability, reliability, and optimal performance.

✓ Client-Centric Approach :

We collaborate closely with clients, understanding their unique requirements and providing tailored solutions that exceed expectations.

✓ Innovation Hub :

Embrace the future with Upase as your partner. We continually invest in research and development to bring the latest technological advancements to your operations.

UPASE PROCESS EQUIPMENT'S

We have great pleasure in introducing ourselves as vendors, contractor for stainless steel (S.S.) heavy fabrication & machined components in regard we furnish here below- with the relevant particulars of our set-up

Current Activities

The company is established in the year – 2022-2023 & actively involved in the business of Turnkey Solution –Design, Manufacturing (fabrication, machining & assemblies), Site Execution.

UPASE specializes in the manufacturing of various equipment used in different Process units like Food, Brewery, Pharmaceutical, Chemical Industries, Oil & Gas Industries & Steel Industries & etc.

Till now reputation of our company with regards to quality & schedule has been maintained to satisfactory (Good) level.

We shall be quite keen to taken up such assignment from your esteemed or organization with assurance to execute the orders as per delivery schedule & give the opportunity to associate with you.

We thank you & look forward to positive response.

Yours Faithfully

For

UPASE PROCESS EQUIPMENT'S

Our Quality Policy
